SOLAR STORY FOR THE WORLD

"On the lines of GST Council which makes recommendations related to Goods and Services Tax, there can be a power sector council. This will help in harmonising the sector's policies, regulations and standards"

VINEET MITTAL
Chairman, Avaada Group

"Most of the existing technologies of using ingots, wafers etc. may not exist in the next decade. We will have to invest in future tech"

RAMESHWAR PRASAD GUPTA
CMD, Solar Energy Corporation of India Ltd

"The next phase of manufacturing is about looking for component-based competitiveness rather than product-based. It's not China plus one, but India plus many"

ARUNABHA GHOSH, *CEO, CEEW*

▼ THE FUTURE OF GREEN HYDROGEN

"Green Hydrogen is a critical element of the Panchamrit plan to decarbonise the economy. We may have started the mission looking for export markets, but now there is a lot of domestic demand as well"

BHUPINDER BHALLA
Secretary, New & Renewable Energy, GoI

▼ GROWING THE GRID & BEYOND
STRENGTHENING REGIONAL CONNECTIVITY

"During solar hours, the flow of current is from south to north [and vice versa]. The transmission system has to handle it"

S.R. NARASIMHAN
Chairman & Managing Director, GRID-INDIA

"The 'One Sun, One Grid, One World' concept is such that nations can make use of time zone differences and their peak hours"

AMIT JAIN
Senior Energy Specialist, World Bank
