

# REVOLUTIONIZING EDUCATION IN INDIA

## GALGOTIAS UNIVERSITY'S LEADERSHIP IN ACTIVE LEARNING AND INNOVATION: SHIFTING FROM TEACHING CENTRIC TO A MORE LEARNING CENTRIC ECOSYSTEM.

The landscape of education in India is undergoing a transformative shift, with active learning and smart classrooms playing a pivotal role in reshaping how knowledge is delivered and absorbed. By moving away from traditional rote learning methods, these innovations emphasize student participation through activities such as discussions, problem-solving, and collaborative learning. This approach fosters critical thinking, enhances understanding, and makes education more engaging and personalized.

In India, where classrooms often cater to large student populations, these advancements offer a refreshing change, promoting meaningful interactions between students and instructors. One of the most significant advantages of active learning is its ability to keep students engaged. By participating in activities designed to reinforce knowledge and skills, students interact with topics more effectively, enhancing retention and understanding.

Furthermore, the integration of online resources and e-learning platforms ensures that learning continues beyond the classroom, offering opportunities for self-paced study and greater access to knowledge.

### A LEADER IN EDUCATIONAL INNOVATION

Galgotias University stands at the forefront of this educational revolution, consistently integrating innovative practices to prepare students for the dynamic demands of the modern workforce. Its smart classrooms, equipped with advanced digital tools such as interactive whiteboards, multimedia resources, and real-time assessments, create a visually stimulating and interactive learning environment.

Galgotias University has reaffirmed its leadership in academia by securing the top ranking in the QS World University Rankings: Asia 2025, further elevating its reputation for academic excellence and global recognition in a remarkably short span of time. In a special ceremony held at Raj Bhavan, Lucknow, Hon'ble Governor of Uttar Pradesh, Smt. Anandiben Patel, felicitated Galgotias University for this outstanding achievement.

Previously, Galgotias University was also recognized among the top global institutions in the Times Higher Education (THE) Interdisciplinary Science Rankings 2025.

"We are deeply honoured by these accolades, and it is only a matter of time before Galgotias University joins the ranks of the world's top 100 universities," said Dr. Dhruv Galgotia.

### iNSPIRE @ NANYANG TECHNOLOGICAL UNIVERSITY (NTU) CONSULTANCY COLLABORATION

A significant milestone in this journey was the recent visit by the senior leadership team of Nanyang Technological University (NTU) Singapore to Galgotias University. This engagement is focused on cutting-edge teaching learning pedagogical transformation at Galgotias university which is making learning much more effective. One notable outcome of this engagement was the evolution of the G-SCALE

(Galgotias Student-Centered Active Learning Ecosystem) initiative, mentored by inspire @ NTU. This project aims to redefine classroom experiences through active, collaborative, and technology-enhanced learning.

### REDEFINING CURRICULUM AND INFRASTRUCTURE

Galgotias University is setting new benchmarks by moving beyond traditional teaching methods and embracing a future-ready curriculum. With a focus on creativity, innovation, and artificial intelligence, the university is designing personalized learning journeys for each student. This transformation not only enhances individual learning but also positions Galgotias as a leader in global educational innovation.

A testament to its commitment to excellence is

Dr. Dhruv Galgotia, CEO of Galgotias University, receives the award from Hon'ble Governor of Uttar Pradesh Smt. Anandinen Patel, at Raj Bhavan, Lucknow.
