

Q. As the lead campaigner for the recent assembly elections, your rallies made a decisive difference....

Your assessment is incomplete here. The BJP is a cadre-based party. Right up to the polling booth, the BJP has a large network of committed *karyakartas*. At every level, it has leadership that finds resonance among the people. Victory comes from the joint efforts of all. So, it would be unfair to give me the credit. The credit belongs to our *karyakartas* for their hard work.

Q. What is the 'Modi Guarantee' for the 2024 general election?

For me, the guarantee is not mere words or election promises, it is the outcome of decades of my hard work. It is an expression of sensitivity towards society. When I talk about the 'guarantee', I bind myself to it. It doesn't let me sleep, it propels me to work harder, it leads me to give my everything for the people of the country. So please don't look for a dictionary meaning of guarantee.

Q. So what is your definition of guarantee?

Only someone who has experienced a life of poverty understands that the greatest force propelling a poor person forward in life is their trust, their hope. This faith of the poor is what keeps me going. Modi will put in his all but will not let the trust of his poor brothers and sisters break. Modi's guarantee is not a formula made for winning elections, Modi's guarantee is the trust of the poor. Today, every poor person in the country knows that Modi will not back down from his duty. Today, every poor person is aware of how political parties in the past have broken their trust. But they also know that Modi's Guarantee can be trusted. This trust of the poor also gives me my energy—even if I completely exhaust myself or push myself over my limit, I will not let this trust be violated.

Q. Are you confident of scoring a hat-trick in 2024? What are the big issues that will determine the outcome of this general election?

Regarding 2024, it is not a question of my confidence. The only thing in my hands is to give my everything in the service of the people. I am trying to do this with utmost honesty and commitment. But today there is a consensus among the people, the experts, the opinion makers and friends from the media too that our country doesn't need a *mili-juli* sarkar (hotchpotch government). We have lost 30 years due to instability resulting from *mili-juli* sarkars. People have seen the lack of governance, the appeasement politics, corruption in the era of *mili-juli* sarkars. This resulted in a loss of optimism and confidence among the people and gave a bad image to India in the world. So, naturally, the choice of people is the BJP.

Q. The Supreme Court, by upholding the abrogation of Article 370, has brought legal closure to it. What steps are now needed for political closure, including holding elections and restoring statehood?

The issue in front of the country is not the Supreme Court bringing legal closure. The people have an issue with the delay in
