All figures in % and rounded off; DK/ CS: Don't know/ Can't say

tive quarter amid continuing geopolitical uncertainties and higher borrowing costs. CMIE data shows that the total value of new projects in July-September 2022 was Rs 3.26 lakh crore, lower than the Rs 4.39 lakh crore in the June quarter and the Rs 8.46 lakh crore in the quarter before. Without adequate private investment, there cannot be enough job creation.

As many as 53.6 per cent of the respondents in the MOTN survey pronounce the unemployment situation as "very serious", though this is nearly 3 percentage points lower than the response in August 2022. Another 18.7 per cent think the unemployment situation is "somewhat serious". Taken together, 72 per cent still perceive the unemployment situation to be dire, just two percentage points lower than in August 2022. Though 34.4 per cent of the respondents believe the Modi government has been able to generate many jobs, 29.7 per cent say the government has created a few jobs, and 28.2 per believe the government has created no employment opportunity at all.

Unemployment and income generation continue to be the chief bugbears for the Modi govern-
