applications using 5G services in engineering institutions to realise new opportunities, business models, and employment potential

## HEALTH

- 157 new nursing colleges will be established in co-location with the existing medical colleges established since 2014
- A Mission to eliminate Sickle Cell Anaemia by 2047 will be launched
- Facilities in select ICMR labs will be made available for research to public and private medical college faculty and private sector R&D teams to encourage collaborative research and innovation
- A new programme to promote research and innovation in pharmaceuticals will be taken up through centres of excellence
- Dedicated multidisciplinary courses for medical devices will be supported in existing institutions to ensure availability of skilled manpower for futuristic medical technologies, high-end manufacturing, and research

## GREEN ENERGY

- Rs 35,000 crore for priority capital investments towards energy transition and net zero objectives, and energy security
- Battery Energy Storage Systems with capacity of 4,000 MWh will be supported with Viability Gap Funding. A detailed framework for Pumped Storage Projects will also be formulated
- The inter-state transmission system for evacuation and grid integration of 13 GW renewable energy from Ladakh will be constructed with investment of Rs 20,700 crore, including central support of Rs 8,300 crore
- Coastal shipping will be promoted as an energy-efficient and lower-cost mode of transport

## EASE OF DOING BUSINESS

- The KYC process will be simplified adopting a 'risk-based' instead of 'one size fits all' approach
- A one-stop solution for reconciliation and updating of identity and address of individuals maintained by various government agencies, regulators and regulated entities will be established using DigiLocker service and Aadhaar as foundational identity; the scope of documents available in DigiLocker for individuals will be expanded
- An Entity DigiLocker will be set up for use by MSMEs, large business and charitable trusts. This will help store and share documents online securely, whenever needed, with various authorities, regulators, banks, and other business entities
- A national financial information registry will be set up to serve as the central repository of financial and ancillary information
- For business establishments, the PAN will be used as the common identifier for all digital systems of specified government agencies
- A Central Processing Centre will be set up for faster response to companies through centralised handling of various forms filed with field offices under the Companies Act; for obviating the need for separate submission of same information to different government agencies, a system of 'Unified Filing Process' will be set up
- To settle contractual disputes of government and government undertakings, wherein arbitral award is under challenge in a court, a voluntary settlement scheme with standardised terms will be introduced

## WHAT'S GETTING CHEAPER

## WHAT'S GETTING COSTLIER

## URBAN DEVELOPMENT

- An Urban Infrastructure Development Fund (UIDF) to create infrastructure in Tier 2 and Tier 3 cities; Rs 10,000 crore per annum will be made available
- All cities and towns will be enabled for 100 per cent mechanical desludging of septic tanks and sewers; enhanced focus will be provided for scientific management of dry and wet waste

## MSME

- Rs 9,000 crore for the credit guarantee scheme for MSMEs; cost of credit to be reduced by 1 per cent
