Government of Goa

CHIEF MINISTER'S MESSAGE

Goa is famous for its sandy beaches, shrines, vibrant nightlife and thrilling water activities.

Tourism has been the major driver of Goa's economic growth. Surpassing Goa's portrayed image of a coastal tourism state, we now aim to promote the unexplored Goa to tourists – its hinterland, spiritual, wellness and eco-tourism.

A leading example of facilitating infrastructure development is the International airport at Mopa. The new Manohar International Airport is being developed in four phases at a cost of Rs. 3,000 crores, of which the first phase will have the capacity to handle 4.4 million passengers per annum. This project is a boon to the state's economy and will offer seamless connectivity to tourists from all over the globe.

Goa's tourism industry contributes more than 16 per cent towards the state's Gross Domestic Product with the state's engagement in G20 summit 2023, it will emerge as a popular destination across the world.

We are also extremely grateful to **Hon'ble Prime Minister Shri Narendra Modi ji** and **Hon'ble Union Minister for Tourism and Culture Shri G Kishan Reddy ji** for sanctioning grants under various schemes such as Swadesh Darshan 2.0, Prasad and others.

The new Zuari cable-stayed bridge which will link North and South Goa directly is being built at a cost of Rs. 2530 crores. It is the second longest and widest cable-stayed bridge in India.

Goa is promoted as a safe destination, offering favourable experience to tourists.

My government's aim is to brand Goa as the Tourism capital of the country, offering a wide and expansive tourist experience.

On behalf of all Goans, I invite everyone to explore Goa and experience our warmth.

Dr Pramod Sawant
Chief Minister
