INDIA TODAY
EDUCATION CONCLAVE

THE SCHOOLS FOR TOMORROW

"We do not have the luxury of time. Our median age is 29 years. China's is 42; in the US it is 38 and for Japan it is 48 years. In about 15-20 years, we will start ageing too. We have a 15-20-year window to reach out to every child.... India will ride to Viksit Bharat in 2047 on the crest of education"

SANJAY KUMAR
Secretary, Department of School Education and Literacy

HOW TO REVAMP ENTRANCE EXAMINATIONS

"What examinations test today is rote memory. For research, you need to at least have the skills of originality, how to write, how to think differently, and that's not tested by the exams. We need to have a go-between"

PROFESSOR SANTISHREE DHULIPUDI PANDIT
Vice-Chancellor, Jawaharlal Nehru University

"India's strength lies in its diversity, yet our entrance exams homogenise thought processes, stifling creativity and originality. Our funding model is also flawed, which discourges institutions from scaling up"

PROFESSOR V. RAMGOPAL RAO
Group Vice-Chancellor, BITS Pilani

"The vast discrepancy between the number of applicants and the available seats needs assessment. We must reassess our current methods and involve educators in the decision-making process to ensure fairness and quality"

R.K. VERMA
Founder, Resonance, Kota

PROFESSIONAL COURSES: THE QUALITY IMPERATIVE

"NEP's emphasis on multidisciplinary learning and research has led to a three-fold increase in our student intake and faculty. The policy aligns with our institution's goals"

PROF. SUDHIR KRISHNASWAMY
Vice-Chancellor, National Law School of India University, Bengaluru

"The focus of NEP on practical engagement with industry and government will enhance the applicability of research and prepare students for real-world challenges"

PROF. AMBUJ SAGAR
Deputy Director, Strategy and Planning, Indian Institute of Technology, Delhi

"While quality standards are crucial, there is a need to integrate ethical practices and hands-on experience into medical curricula"

DR SUNITA GUPTA
Link Officer to Director - Principal; Head of Oral Medicine and Radiology Department, MAIDS
