

22 Landmark projects

~15 million Sq.Ft. deliverd area

~22.5 million Sq.Ft. Ongoing projects

Ace, a leader in NCR's real estate sector, began with a vision to redefine industry standards. Starting in Greater Noida, the group quickly expanded across key locations including Noida Expressway, Greater Noida West, Gurugram, and now on Yamuna Expressway. With every project, Ace has set new benchmarks for luxury living, offering top-tier amenities and sustainable solutions through green building practices. Known for its commitment to transparency, on-time delivery, and uncompromising quality, Ace has earned a reputation for delivering iconic developments that enhance the region's skyline. The future of residential townships along Yamuna Expressway is particularly promising, with the area emerging as a prime destination for high-end residential projects. The expressway's connectivity to key NCR hubs, combined with evolving infrastructure like the new Noida international airport at Jewar, will drive demand for modern, well-planned townships that offer both luxury and sustainability. Ace, with its strategic vision, is well-positioned to lead this transformation, bringing world-class living to one of the most dynamic growth corridors in NCR.
