by over 50 times in the past two decades—from 0.1 million tonnes in 2004 to 5.4 million tonnes last year—making Odisha not only self-sufficient in foodgrains but also in a position to sell to other states. Its maternal and infant mortality rates have dropped significantly, and the state's per capita income has trebled since 2012. It now stands at Rs 1.6 lakh per annum, higher than in other backward states such as Uttar Pradesh, Bihar, Madhya Pradesh, West Bengal and Jharkhand. GDP growth, too, was an impressive 7.8 per cent last year, higher than the national average of 7 per cent. In terms of fiscal management, Odisha's debt to GDP ratio is 13.1
