

BOAT CLUBS

With enhanced boating facilities and upgraded boat clubs, destinations like Cuttack and Hirakud now have a lot more to offer to visitors.

Millennium City Cuttack has embraced a new era of leisure and recreation with the unveiling of the Byanjana Food Court and Watersports Zone at the Taladanda Canal Front and the redeveloped Silver City Boat Club in Cuttack. These are both Department of Tourism projects which have been executed by the Odisha Tourism Development Corporation (OTDC) Ltd. The revamped Silver City Boat Club now features added Water Sports activities, an Open-Air Amphitheatre, Food Court, Children's Play Area, Wooden Shack, and a breathtakingly beautiful Glass Deck facing the Mahanadi River. The Byanjana Food Court at Taladanda Canal Front features a diverse range of culinary delights, catering to every palate. Visitors can savour a gastronomic journey while enjoying the tranquil waterside ambience. Adjacent to the Food Court, the Water Sports Zone offers a thrilling array of activities, including Solar-Powered Boats, Shikara Boats, and Zorbing Ball.

Meanwhile, Hirakud Boat Club is an upcoming project on the world's longest earthern dam, Hirakud. Hirakud Dam attracts tourists with its impressive structure and picturesque surroundings. Visitors can enjoy boat rides on the vast reservoir, explore the panoramic viewpoints, and delve into the rich history of this engineering marvel. With the boat club, Hirakud is set to transform into a premier tourist destination. The Dam's vast waterfront, which is available throughout the year, has immense tourism prospects. Water sports activity has been operational on the right dyke of Hirakud Dam near Jhankarani Temple in Burla. Water sports like Jet Ski, speed boats, water scooter, bumper boat, banana boat, kayak, paddle boat and a day cruise are now available for tourists at the reservoir apart from the newly launched 40-seater floating restaurant. As part of the proposed master plan for Hirakud, it has been decided to set up a boat club at the dam for tourists with development of recreational facilities and water-based activities at Hirakud Dam with gated vehicle parking area, vending zone, common facilities like toilets, restaurant, shacks on the island, floating jetty to island and children's play area.

The boat club at Hirakud will also serve as a template for developing boating and boat clubs at the many dams across Odisha. These boat clubs stand as a testament to Odisha's commitment to preserving its natural beauty while offering modern amenities to its residents and visitors. These developments are expected to generate job opportunities, boost local businesses, and contribute to the growth of Odisha's tourism industry.
