CATALYSING TOURISM SECTOR GROWTH THROUGH INVESTMENT FACILITATION

Odisha's tourism sector has witnessed significant strides with the approval of 170 tourism projects, collectively amounting to an impressive investment worth Rs 7,650 crore. These projects encompass a diverse range of offerings, including hotels, convention centres, resorts, motels, water amusement complexes (WACs), amusement parks, water parks, cruises, houseboats, and water sports facilities. One of the notable outcomes of these approved projects is the creation of employment opportunities, with an estimated 10,000 jobs expected to be generated, both directly and indirectly. In addition to project approvals, the acquisition of investible land around 22 tourism sites in Odisha marks a strategic move towards enhancing tourism infrastructure.

ODISHA TRAVEL BAZAAR

Odisha Travel Bazaar, one of the flagship initiatives of the Department of Tourism, is an event that aims to bring together all the National and International travel and tour operators, and Destination Management Companies (DMCs) under one platform to let them explore the various tourism offerings of Odisha. The objective of Odisha Travel Bazaar is to promote Odisha as a leading tourism destination to both domestic and foreign tourists. This year, to elevate the experience of DTOs and FTOs, the outreach programme was conducted at Eco Retreat Konark for the very first time. This un-conferencing gave a one-of-a-kind chance to every participant to discuss future avenues of Odisha Tourism.
