OPERATION ANTI VIRUS

Launched on February 29, the operation is led by IG Rahul Prakash and his team. Their goal: stop online fraud from Deeg

They compile a directory of locations of cyber criminals culled from complaints of fraud from across India that lead to Deeg

Suspects are categorised: providers of forged SIM or ATM cards, mule account operators; sextortion criminals; police impersonators; regular online fraudsters

The team analyses location of cyber criminals daily by matching them with locations in the directory

Police arrives at location of origin of fraud calls, seizes and scans phones for fraud calls, suspicious transactions, searches place/ persons for fake SIM cards, forged documents etc. and books suspects

FIRs also registered by police for child pornography and cyber terrorism

Police discusses with judges the enormity of cyber crime so that criminals don't get easy bail

Police of area where 1930 complaint is reported is informed; accused booked for specific crime

Probe team analyses recovered material; scans IMEI/SIM to detect other criminals

Criminals' bank accounts, properties built by proceeds of crime seized; unauthorised buildings demolished
