UTTAR PRADESH: EMERGING AS A HUB OF EMP

Over the past seven and a half years, Uttar Pradesh has fostered an environment where youth talent is recognized and rewarded. During this period, approximately 7 lakh government appointments have been made. Prior to 2017, the youth faced widespread disappointment due to discriminatory practices in the selection process. Youth from Uttar Pradesh also struggled with an identity crisis when venturing outside the state. Today, this narrative has changed–young people from Uttar Pradesh are earning respect and recognition wherever they go across the country.

In 2017, soon after assuming office, the Yogi Adityanath government introduced a transparent selection process that guarantees timely employment opportunities for the youth while ensuring complete integrity in the recruitment process. Today, government appointments are progressing unprecedently , with youth from even the smallest villages and towns of the state securing positions in government services. Recruitment commissions and boards are efficiently completing the appointment processes, aided by significant reforms designed to benefit aspiring candidates.

Chief Minister Yogi Adityanath has taken a proactive approach by distributing appointment letters to selected candidates, symbolizing respect and empowerment for the youth. This initiative continues as part of the government's sustained efforts to strengthen employment opportunities in the state.

In a major step towards ensuring transparency and fairness in public examinations, the Yogi government introduced and passed the 'Uttar Pradesh Public Examination (Prevention of Unfair Means) Bill-2024' in the Assembly. This legislation aims to eliminate malpractices such as cheating and paper leaks. Under this law, stringent penalties, including imprisonment ranging from two years to life and fines up to ₹1 crore, have been prescribed for those involved in examination-related malpractices. The legislation is a significant move in the government's ongoing crackdown on the "copy mafia," following previous stringent measures against paper leaks.

Further strengthening examination integrity, Chief Minister Yogi Adityanath has directed that no private institution will be designated as an examination center. Only government and government-aided schools will serve as examination centers.

> New airports, defence corridors, mobile manufacturing units, modern infrastructure, and waterways in Uttar Pradesh are generating unparalleled employment opportunities. Significant strides have also been made in education and skill development across the state. Through the Skill Development Mission, over 16.50 lakh youths in Uttar Pradesh have been trained in various skills, opening up new avenues for employment for the youth of Uttar Pradesh.

EMPOWERED YOUTH POWER

Uttar Pradesh, home to the largest youth population in the country, is witnessing transformative steps under the leadership of Chief Minister Yogi Adityanath to empower its youth and equip them with skills aligned with current and future demands. A pivotal initiative in this direction is the "Swami Vivekananda Yuva Sashaktikaran Yojana", which has emerged as a highly impactful program. Launched as a pilot project in 2022-23, the scheme aims to enhance the technical capabilities of the state's youth by distributing tablets and smartphones to students in higher educational institutions and skill development programs.

The scheme benefits students pursuing graduation, post-graduation, diploma courses, paramedical and nursing programs, and other vocational training. To date, 46.75 lakh gadgets, including 19.84 lakh tablets and 26.91 lakh smartphones, have been distributed across the state. Additionally, a focused effort is underway to allocate 13.14 lakh more gadgets, including 12.94 lakh smartphones and over 20,000 tablets, to eligible students.
