Transformative Healthcare

Ms. Sunanda Singhania's Vision for PSRI Hospital

In the bustling heart of Delhi resides a temple of healthcare excellence, the Pushpawati Singhania Hospital & Research Institute (PSRI Hospital). Established in 1996 as South East Asia's pioneering institute for advanced medical and surgical treatment of digestive & kidney related diseases.

Mrs. Sunanda Singhania
Executive Director
PSRI Hospital

Pioneering Excellence

As the Executive Director of PSRI Hospital, Ms. Sunanda Singhania has been the driving force behind the institution's transformative journey. A distinguished member of the JK Tyre & Industries Ltd and associated with various JK Group companies for over four decades, Ms. Singhania's leadership prowess has played a pivotal role in making PSRI one of the most respected multi-specialty hospitals in the country, reflecting her commitment to healthcare and community welfare.

A Commitment to Compassionate Care

While committed to delivering world-class healthcare facilities, as a not-for-profit institution, PSRI Hospital prioritizes patient well-being over financial gain. Guided by a philosophy of compassionate care, the hospital has garnered national and international repute for its quality of treatment, patient care, ambience, and high-level patient satisfaction.

A Visionary Mission

At the core of PSRI Hospital's mission is the unwavering dedication to providing promotive, preventive, and curative healthcare services of the highest standard. Ms. Singhania's vision emphasizes the importance of professional excellence through original research, academic activities, and a collaborative team approach to deliver quality services at the most affordable cost. Her visionary leadership also ensures that the hospital remains a beacon of excellence, compassion, and impactful community outreach in the ever-evolving landscape of healthcare.

Advancing Specialized Healthcare

With cutting-edge facilities, the latest technology, and highly experienced consultants, the hospital draws patients not only from the National Capital Region and various Indian states but also from abroad, seeking highly specialized tertiary-level treatment.

Community Health Awareness

In order to ensure that important matters spanning the spectrum of responsible & sustainable healthcare delivery doesn't get diluted & stays afresh in the minds of all, PSRI believes in celebrating some days more fervently than usual, throughout the year such as:

1. World Kidney Day - **14th March 2024**
2. World Liver Day - **19th April 2024**
3. World Organ Donation Day - **13th August 2024**
4. World Heart Day - **29th September 2024**

Green Energy

To ensure PSRI's actions drive meaningful impact and contribute to a better tomorrow, Institute has undertaken various green initiatives such as:

1. Designing & modulating the infrastructure in a way that there is a due provision for adequate natural light, fresh air and color therapy on the walls and lights.
2. Installation of solar panels within the facility
3. Usage of refrigeration system with R134 & R134 A gases
4. Implementation of rainwater harvesting pits and usage of Organic Waste Converter

Beyond Hospital Walls

PSRI's commitment extends beyond hospital walls, reaching communities through diverse social outreach programs. Mobile dispensaries bring healthcare to villages, which underscores the hospital's holistic approach to community well-being. Ms. Singhania's passion for societal impact aligns seamlessly with the hospital's ethos, reflecting her dedication to addressing healthcare disparities.

Global Clinical Research

PSRI has been at the forefront of outstanding clinical research since its inception. The institution holds a wealth of patient data across all specialties, facilitating retrospective research and offering fresh insights into disease incidence and prevalence in the Indian context. Collaborative research beyond drug trials and clinical studies is actively pursued through partnerships with select universities. Moreover, PSRI's commitment to global standards is underscored by its prestigious SIRO certification from the Ministry of Science and Technology, Government of India. As a result, PSRI's clinical research program has firmly established the institute among the most esteemed healthcare facilities in India.
