# EMPOWERING INNOVATION AT REVA NEST: A HUB FOR ASPIRING STUDENT ENTREPRENEURS

**Are you a first-time entrepreneur with a promising business idea? Before you can persuade investors—whether banks, angel investors, friends, or family members—to fund your venture, extensive research and planning are essential. Crafting a compelling business plan, understanding your financial needs, and addressing potential shortcomings in your idea are critical steps to success. REVA NEST, a Technology Business Incubator located at REVA University helps you through this journey, providing the tools and support needed to transform your innovative ideas into successful ventures.**

**Dr. P. Shyama Raju**
Chancellor, REVA University

Our incubator benefits from the expertise of REVA University's faculty members and industry mentors, who offer invaluable advice on Technology Product Development, Patenting, Commercialisation, Marketing, Business Set-up, Operations, and Human Resource Sourcing and Development. Recognised by the Ministry of Micro, Small, and Medium Enterprises (MSME) and supported by the Government of Karnataka's Department of Science and Technology, REVA NEST is a beacon of innovation in the region.

We have access to state-of-the-art facilities at REVA University's Centres of Excellence in Electronics and Communication, Design & Manufacturing, Construction, and Biotechnology. Our programs are designed to nurture creativity and innovation, particularly in the thrust areas of the Internet of Things (IoT), Electronic System Design and Manufacturing (ESDM), Robotics & Intelligent Systems, IT/ITES, Clean Energy, Green Energy, Art and Design, Social Entrepreneurship, Healthcare, Agriculture, etc.

### Creating a Start-up Ecosystem

REVA NEST is committed to creating a Start-up ecosystem. It also establishes the objectives below.

- **Nurturing Early-Stage Start-ups:** We support start-ups in their early stages, helping them navigate challenges and build a strong foundation.
- **Capacity Building:** We offer training programs designed to enhance the capabilities of start-ups, equipping them with the skills needed for growth.
- **Value-Added Services:** We provide various value-added services, including legal, financial, technical, and intellectual property rights (IPR) mentoring.
- **Innovation Centres:** We establish centres for rapid prototyping, enabling start-ups to quickly develop and test their products.
- **Business Networking:** We facilitate business networking opportunities to accelerate enterprise growth.
- **Global Exposure:** We provide global exposure through corporate platforms and university partnerships, connecting start-ups with international markets.

### Incubation Programs

REVA NEST offers a range of incubation programs designed to support entrepreneurs at different stages of their journey.

- **Pre-Incubation:** This program aims to support ambitious and innovative entrepreneurs by helping them transform their ideas into a minimum viable product. Through mentoring, structured workshops, peer-to-peer learning, and individual support, the Pre-Incubation Program provides a platform for founders, students, and working professionals to shape their ideas and build ventures.

### Important Programs

- Wadhwani IGNITE Program.
- REVA NEST Pre-Incubation Program

- **Incubation:** We engage with start-ups at the national level, offering comprehensive support that includes company registration, mentoring, and connections with angel investors, venture capitalists, and other key players in the entrepreneurial ecosystem.

### Premium Programs

- REVA NEST Incubation Program
- LIFT Off Program in association with Wadhwani Foundation
- Start-up Bootcamp – University Edition, in association with Google India
- DISQ, Young Cohort, in association with TCS DISQ
- CISCO ThinQubator Program, in association with CISCO & NASSCOM Foundation

### Admission to REVA NEST

REVA NEST welcomes a diverse group of innovators, offering its resources and support to registered students, current faculty members, and alumni of REVA University, as well as start-up firms that are less than five years old. This inclusive approach ensures that anyone connected to REVA University, whether they are just beginning their entrepreneurial journey or have years of experience, can access the guidance and infrastructure needed to bring their innovative ideas to life. Whether you're a student with a fresh perspective, a faculty member with cutting-edge research, an alumnus with industry experience, or a young start-up looking to make an impact, REVA NEST provides the platform and resources you need to succeed.

### Services Offered

Upon admission to REVA NEST, incubatees gain access to a comprehensive range of infrastructural facilities designed to support their growth. Each company receives customised office space equipped with basic furniture, ensuring a conducive environment for productivity. They also have access to REVA University's well-equipped departmental laboratories, facilitating advanced product development. For seamless communication, broadband internet and telephone lines are available on a chargeable basis. In addition to these individual resources, incubatees can utilise shared infrastructure, which includes a printer and photocopier with a scanner, a meeting and conference room with projection equipment, pantry facilities, and access to the university's library. This blend of individual and shared facilities provides a robust foundation for innovation and collaboration.

### Additional Services

Beyond physical infrastructure, REVA NEST provides a wide range of support services to improve start-up growth. Incubatees gain access to a network of mentors and experts in technology, legal, financial, and other critical areas. The incubator hosts events that facilitate networking and technology showcases, along with opportunities to meet alumni, venture capitalists, and industry professionals. Tailored consulting services are also available to meet the specific needs of each start-up.

### Maker's Space: Fab Lab Facility for Prototyping

REVA FABLAB, our digital fabrication laboratory, is a creative hub where students can play, create, learn, mentor, invent, and innovate. The FabLab provides access to a supportive environment, essential skills, materials, and advanced technology, empowering anyone to make (almost) anything.

### Key Achievements of REVA NEST

REVA NEST has made significant strides in fostering innovation and entrepreneurship, having incubated 72 innovative start-ups across various thrust areas. The incubator has actively promoted entrepreneurship on campus by conducting over 500+ innovation and entrepreneurship events as well as creating 400+ job opportunities for students. Notably, six start-ups from REVA NEST emerged as winners in the Elevate Start-up Karnataka competition, collectively securing a grant of Rs. 2 Crore. Additionally, nine alumni have successfully graduated from the incubation program and accelerated their ventures in the market. REVA NEST's achievements have been recognised with the prestigious "Start-up Project of the Year" award at the Global Education Skills MSME and Entrepreneurship Summit Leadership Award 2020, the "Best Incubator" award at the AEONIAN 2021 by ASPIRE MEDIA, and 67th Rank in NIRF Innovation Category FY 2022-2023.
