BANGALORE	₹9,80,510
PUNE	₹13,22,575
HYDERABAD	₹12,33,250
KOLKATA	₹15,15,000

with the emergence of online learning platforms like Coursera and edX. Providing access to high-quality digital content from top global educators, they have democratised education for students at all levels. B-schools, particularly those with limited access to top faculty, too, can leverage these platforms to enhance the learning experience. Simultaneously, Massive Open Online Courses (MOOCs) have shifted student preferences from traditional classroom learning to more flexible, video-based instruction for a generation reared on modern media consumption habits.

To keep up with the times, B-schools are rethinking their curricula, incorporating shorter, modular programmes that focus on specialised, job-ready skills. Executive education and certificate programmes, too, are on the rise, offering professionals the chance to upskill or reskill without committing to a full-time MBA. Moreover, with their focus on areas such as digital marketing, operations and AI, these programmes provide immediate value to the industry and help B-schools stay financially sustainable. These courses, often delivered in collaboration with global institutes, are designed to fast-track skill acquisition in high-demand areas and address the specific needs of the modern workforce.

Challenges Galore

Even as AI and online platforms offer vast ease and exposure, the shift requires significant investments in technology and faculty training. The role of educators too is changing—from traditional lecturers, they have to become facilitators of learning, helping students navigate complex, AI-driven content. Additionally, as B-schools embrace more practical, application-based teaching models, they also have to address declining attention spans and the mental health challenges of students in a post-pandemic world.

O.P. JINDAL GLOBAL
INSTITUTION OF EMINENCE DEEMED TO BE
UNIVERSITY
A Private University Promoting Public Service

TRANSFORM YOUR CAREER WITH
1 YEAR FULL TIME M.Sc. FINANCE

Students Can Expect to Master
