"The Ram mandir is as great an event as India landing on the moon"

A long-standing promise of Modiji and the many people who were connected to the Ram Mandir movement was fulfilled with the consecration. I am primarily a worshipper of Kali, Saraswati and Lakshmi, but I understand the emotion people have towards Ram. Millions of Indians have put their faith in Siya Ram and their dreams were realised today, as was mine. There is no point politicising the issue. To those critical of the move, I can only say that the consecration at the Ram temple is as great an achievement as India's landing on the moon or its hosting of the G20 summit successfully.
