CLEARING THE SACRED PATH

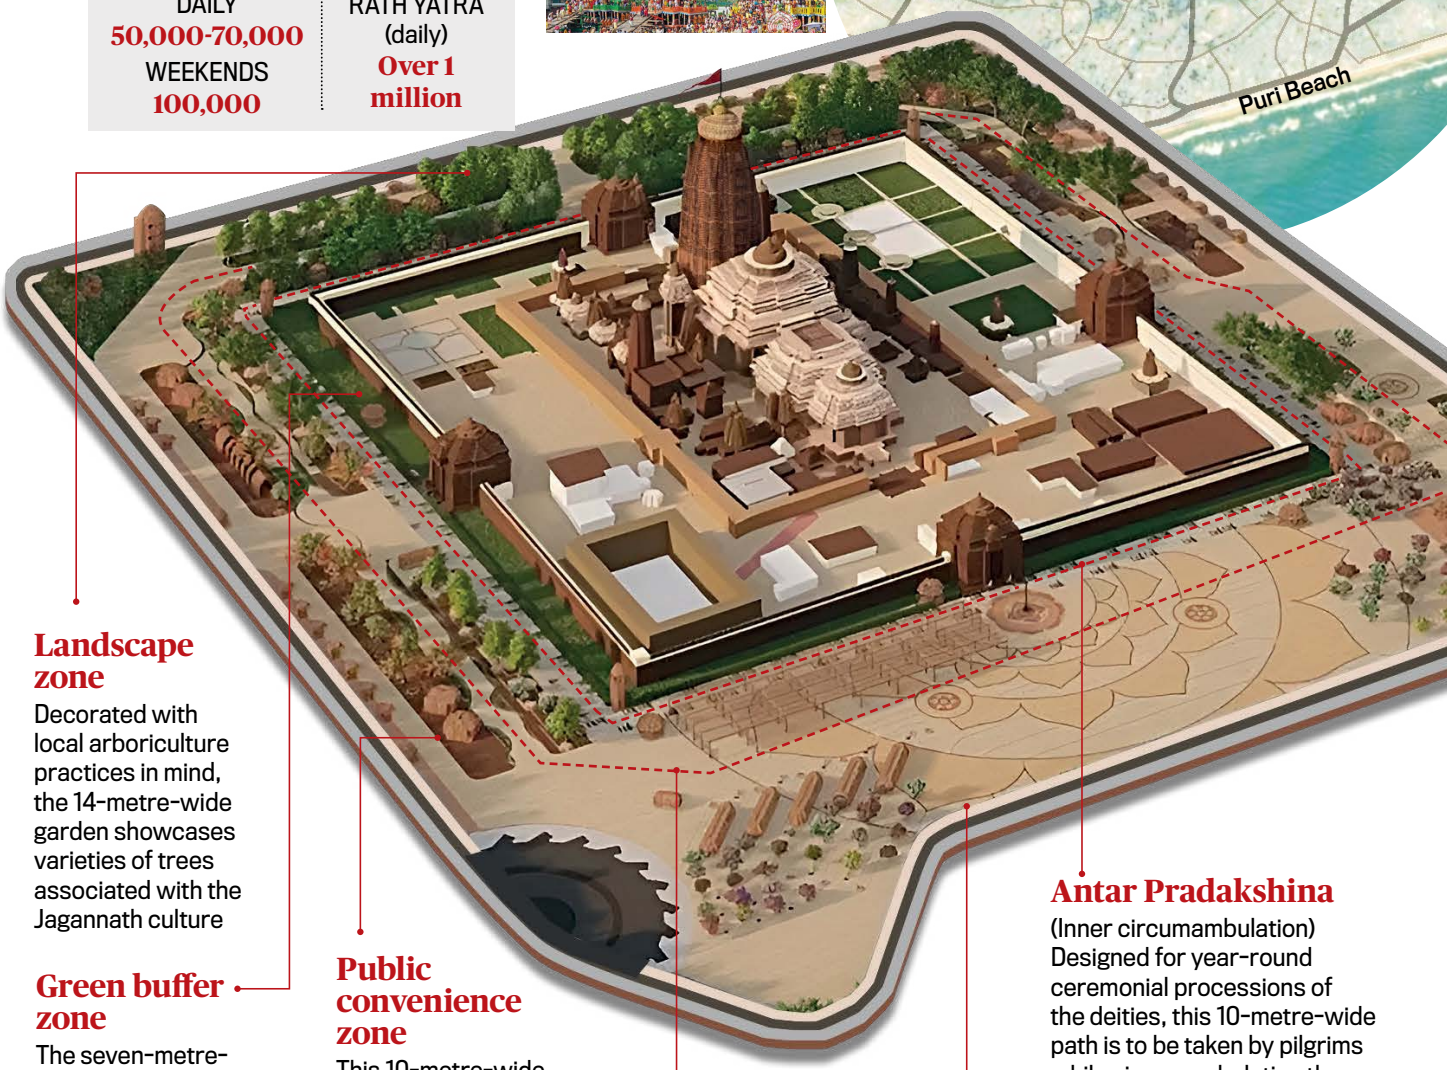

The 75-metre-wide heritage corridor, abutting the Meghanada Pacheri (the outer compound wall) of the Jagannath Temple, is divided into nine zones on the northern, southern and western sides. Beyond enhancing the spiritual experience, the corridor is designed to provide essential amenities for pilgrims and bolster security at the shrine

FOOTFALL AT THE SHRINE

DAILY	RATH YATRA (daily)
50,000-70,000	Over 1 million
WEEKENDS	
100,000	

Landscape zone

Decorated with local arboriculture practices in mind, the 14-metre-wide garden showcases varieties of trees associated with the Jagannath culture

Green buffer zone

The seven-metre-wide corridor comprises a two-metre hardscape area for staff access and maintenance and a five-metre terraced landscape adorned with lush greenery

Public convenience zone

This 10-metre-wide area features nine restrooms, drinking water facilities, two information-cum-donation kiosks, three mini cloakrooms, one police kiosk, one open-air auditorium and two shelter pavilions

Bahya Pradakshina

(Outer circumambulation) Shaded by trees on both sides, this eight-metre-wide pathway provides a tranquil route for visitors and pilgrims

Antar Pradakshina

(Inner circumambulation) Designed for year-round ceremonial processions of the deities, this 10-metre-wide path is to be taken by pilgrims while circumambulating the complex

Service lane

The five-metre-wide lane is reserved for service vehicles and corridor maintenance, ensuring seamless functionality
