

level. Their achievements fill my heart with immense pride."

Beyond the research and sports arena, Guru Kashi University thrives as an epicentre of agricultural innovation. Its enterprising teachers hold patents and high level of research publications particularly in cutting-edge agricultural advancements. The campus buzzes with various activities, from mushroom cultivation, Seri-culture & Bee Keeping experiments in state-of-the-art laboratories to student-led compost preparation for commercial sale. The flourishing greenhouse exemplifies the university's hands-on approach to learning.

"Now we are setting up the Mushroom Processing plant with the help of the central government. I am sure this move would greatly encourage both our students and faculty who are working tirelessly in the area of mushroom growth research. The commercialisation of the processing plant would also generate employment for the students. Our policy of learn, earn and Return not only works for start-ups and innovations but also rigorously impacting on community outreach programmes", says Singh.

Apart from that, Punjab's Ministry of Environment has also given a hefty grant to the GKU for doing research to combat stubble burning and its hazardous impact on climate change in Punjab.

The Guru Kashi University has also initiated Drone Technology program with a reputed organization like Garuda Aerospace collaborating with it. "It's a delightful experience for our students to have a "Centre for Excellence" by the Garuda Aerospace in our university. This is indeed a marvellous milestone that we're proud to have reached, says the Chancellor. When asked about students' placements, Singh was delighted to inform that a company named Team Lease has just recruited an entire batch of 200 students - a remarkable feat. Further, the Read India foundation has also sponsored the GKU with a grant of about six lakhs for the skill development of the rural women.

Looking ahead, Singh envisions Guru Kashi University expanding globally, with its QS and QAA accreditations, and diversifying its faculty and student. "Quality over quantity," he asserts, "We want to maintain our top ranking and enhance our global footprint and aim at getting the faculty from different parts of the globe to develop cultural intelligence among students from diverse National & International backgrounds."

His ambition is to elevate the university's academic stature on the global scale and to create a melting pot of cultures and ideas at Guru Kashi, fostering a sense of belonging among students from diverse backgrounds. The focus on international collaborations, faculty and student exchange programs, and International Collaborative Research reflects the global vision for global wellbeing.

> S. Gurlabh Singh's message to his academic fraternity is clear and inspiring: "Join us in our mission to create a better world through holistic education and develop community orientated professionals to address local & global concerns through technology and value system."
> Singh's contributions were also recognized during the 550th birth anniversary of Guru Nanak Dev Ji in 2019 by PTC Network, a moment of immense pride for him and was also awarded and Visionary Leadership Award in 2020.
