Insightful discussions, pulsating concerts and more...Youth Summit 2024 was brimming with energy as over 5,000 students converged in Bengaluru to meet their icons

In its 19th edition, the India Today Mind Rocks Youth Summit set a new benchmark for the event that connects youngsters to their role models. Held on September 14 at the Presidency University campus in Bengaluru, it was the first time that Mind Rocks went beyond its popular auditorium format to become an arena event with 5,000-plus students in attendance. Serving up a non-stop, eclectic line-up of speakers that boasted Bollywood celebrities, Union and state ministers, a best-selling author, start-up hero, supercop, YouTube star and a top stand-up comedian among others, the day-long summit, in true arena-rock spirit, also featured two power-packed concerts by rapper MC Square and Indo-Canadian singer Jonita Gandhi. It wasn't just minds that rocked, the feet did too! ■
