

and a total of 30.69 lakh social security pension beneficiaries are linked with this certificate.

Haryana has also raised monthly allowances under various schemes to ₹3,000, including the Old Age Samman Allowance, Widow Pension, and Disability Pension. New schemes introduced include financial assistance for widowers, unmarried individuals, and disabled children.

The arch of social welfare also covers de-addiction efforts. As many as 153 centers have been established for treatment of addicts and rehabilitation. Under the 'Haryana Gaurav Samman Yojana', Padma awardees are offered a monthly honorarium of ₹10,000

HARYANA'S INFRASTRUCTURE REVOLUTION: BUILDING ROADS TO PROSPERITY

The Haryana Government has revolutionized its infrastructure with emphasis on construction of new roads and re-carpeting/improvement of the old ones underscoring its commitment to enhancing connectivity through substantial financial investments.

The state's infrastructure blueprint includes construction of 2,364 kilometers of new roads at a cost of ₹2,462 crore. Additionally, a monumental 37,766 kilometers of roads have been improved at the cost of ₹25,527.67 crore. The government has prioritized constructing of metal roads on all revenue routes wider than 33 feet, ensuring robust and durable roadways across the region. Further, the government has approved ₹ 1,030.01 crore for the construction of 14 new bypasses. Notable projects include completion of the four-lane Bhiwani bypass; the Khark-Bhiwani road at the cost of ₹247.25 crore, and the nearly completed Pinjore Bypass costing ₹170.27 crore.

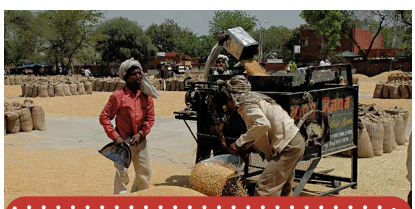

During the tenure of the present administration, 20 new national highways spanning 1,069.82 kilometers, have been declared. Numerous projects are underway to enhance and expand national highways and improve traffic flow and regional connectivity. To streamline traffic, 27 toll tax barriers have been removed, facilitating smoother and faster travel across the state. Numerous bridge projects are underway to improve connectivity and boost transportation efficiency across the state.

Innovative public-private partnerships have also contributed to infrastructure development. These include 14.28-kilometer two-lane Firozpur Jhirka-Bivan road in Mewat district, developed with cement concrete pavement at the cost of ₹64 crore. With a view to enhancing transparency, the department has launched a Facebook page, and given a WhatsApp number to get feedback from the public. Contractors can now send payment demands via email, ensuring transparency and expediting payments.

The Pradhan Mantri Gram Sadak Yojana-III has also seen substantial investment, with ₹383.58 crore approved for 83 road works covering 688.937 kilometers in July 2020, and ₹549.51 crore for 120 road works spanning 1,216.946 kilometers, in March 2021. Key road expansion and improvement projects include widening of the roads in Kaithal-Dhand, Deoban-Rajaond-Asandh, Tohana by-pass, and others.

The elimination of railway crossings is another pivotal initiative. Since October 2014, 96 railway overbridges/ underpasses have been completed at the cost of ₹1956.42 crore. A flagship project, the Haryana Orbital Rail Corridor, featuring 122-kilometer double line costing ₹5,617 crore from Prithla (Palwal) to Sonipat along KMP, is expected to significantly enhance regional rail connectivity. The rail network is expanding with key projects such as the Rohtak-Maham-Hansi railway line, the elevated track in Rohtak, the Jind-Hansi new railway line, and Karnal-Yamunanagar new railway line.

Visionary leadership and the Haryana Government's unwavering commitment to progress have ensured sustained growth across all sectors. As Haryana continues to build on its successes in agriculture, sports, healthcare, and infrastructure, its strategic initiatives and robust policies are set to enable the state to make a leading contribution in realizing the vision of the Honourable Prime Minister of Viksit Bharat by 2047.

"I run my flour mill business. Due to dengue fever, I lost the ability to walk. We received information through the Family Identity Card about various schemes offered by the government. Now, I wanted to expand my flour mill business to increase my income for which a loan of ₹3 lakh has been approved under PMEGP. We are very happy with the Family Identity Card which is helping the poor families in accessing schemes and increase their income.
