A KEYHOLE PREVIEW OF THE LAWS FOR AI

INDIA HAS TO FIND ITS FOOTHOLD IN EVOLVING LAWS THAT ALIGN WITH SECURITY AND PROTECTIVE NEEDS AND ALSO IN FACILITATING BUSINESS GROWTH BY FOSTERING CERTAINTY AND TRUST

"Real or fake?" The oft-repeated question boomed across households glued to stories of obscene or defamatory celebrity deepfakes. ChatGPT had already made Artificial Intelligence dinner table conversation-worthy. Copyright and personality violation claims, misinformation, defamation and fabricated cases being presented due to "AI hallucinations" have led to several cases being filed against generative AI developers. With cases of AI
