

6. Sindhudurg & Ratnagiri Kokum (Maharashtra)

Kokum, a valuable fruit with commercial significance, thrives in the forests of the Western Ghats in Maharashtra. Known as the "Kool King," Konkan's Kokum is gaining global recognition. Beyond its traditional culinary uses, Kokum is now utilized in cosmetics for products like lotions, creams, lip balms, and soaps. It has been historically acknowledged for aiding digestion, hydration, addressing gastric concerns, and reducing fever.

7. Marathwada Kesar Mango (Maharashtra):

Marathwada Kesar Mango, cultivated in the Marathwada division of Maharashtra, stands out with its saffron-like colour and taste. With higher soluble solids and a characteristic flavour, it is a preferred variety for both domestic and international markets. Its large size, high nutritional content, and retention of flavour after processing make it a favourite for both fresh consumption and processing industries.

8. Patan Patola (Gujarat)

Patan Patola, pure silk double ikat fabrics, originates from Patan and is woven by the Salvi community. Distinctive for its unique production on a single hand-operated loom, the fabric features intricate designs, including geometrical shapes, flowers, animals, and traditional patterns. Patan Patola's reversible nature and vibrant colours contribute to its appeal.

9. Harmal Chilli (Goa)

Grown in Harmal village, Pernem Taluka in Goa, Harmal Chilli is a notable spice crop. With its reddish-brown colour, medium to high pungency, and good shelf life, this chilli variety adds a strong taste and colour to various culinary preparations. Its small to medium size and unique flavour make it an essential component in Goan cuisine.

10. Bhalia Wheat (Gujarat)

Bhalia Wheat, primarily grown in the Bhal region of Gujarat, is distinguished by its hard and bold grains with a vitreous texture. Rich in protein, with medium sedimentation value, high carotene, less yellow berry, and low water absorption, Bhalia Wheat has become a symbol of quality and taste. Its export potential has contributed to India's wheat export market, benefitting regions like Yemen, Indonesia, Bhutan, Philippines, Iran, Cambodia, and Myanmar.

11. Nagpur Orange (Maharashtra)

Cultivated in the Nagpur and Vidharbha region of Maharashtra, Nagpur Oranges are prized for their medium size, oblate shape, thin and easily peelable skin, fine texture, and excellent flavour. Packed with essential nutrients, including vitamin C, potassium, and fibre, Nagpur Oranges are recognized globally for their attractive colour, pleasant flavour, and nutritional value.

12. Ratlami Sev (Madhya Pradesh)

Ratlami Sev, a savoury snack originating from Ratlam in Madhya Pradesh, is crafted from split Bengal gram flour, cloves, and peppers. Known for its unique spicy taste, light yellow colour, and origin in Ratlam, this snack has become a staple in regions like Madhya Pradesh, Gujarat, Delhi, and Maharashtra. Its popularity extends internationally, with exports to countries like Singapore, the USA, China, and the UK.

13. Chanderi Sarees (Madhya Pradesh)

Chanderi Fabric and Silk products from Chanderi, Madhya Pradesh, represent a 500-year-old tradition of intricate handwoven textiles. Initially created for royal families, Chanderi has evolved into a center of excellence for weaving gold-embellished fabrics. With 3000 active looms, the region continues to produce sarees, dupattas, pagdis, and other dress materials known for their light weight, transparency, and unique designs.

14. Jabalpur Stone Craft (Madhya Pradesh)

Jabalpur, Madhya Pradesh, is renowned for its stone craft, with marble rocks from Bheda ghat attracting artisans since medieval times. The soft marble rocks facilitate the creation of decorative objects, including figures and carved panels. Stone crafts in Jabalpur showcase a rich tradition of carving that originated in the medieval era, with historical monuments standing testament to the artisans' skill.

15. Morena Gajak (Madhya Pradesh)

Morena Gajak, a delightful sweet treat from the Morena district in Madhya Pradesh, is crafted from a blend of jaggery or sugar and sesame. Golden brown in colour, this hand-made treat is not only affordable and delicious but also holds high nutritional and medicinal value. Its crispiness, crunchiness, and tenderness offer a unique sensory experience, making it a cherished part of local traditions and cuisine.

III. Southern Symphony: Unraveling the Rich Variety of GI Products in India's South

India's southern region is rich in diverse GI products, each representing the unique cultural and natural heritage of the respective states. From fragrant flowers to exquisite crafts, here are some notable GI products from the southern part of India:

1. Hadagali Malligae (Karnataka)

Hadagali jasmine, locally known as Vasane Malligae, is a unique variety grown exclusively in Huvina Hadagali taluk of Bellary district in Karnataka. The white flowers owe their distinct fragrance to the dry sandy soil and low rainfall of the region. Legend has it that during the Vijayanagara era, flowers from Hadagali were floated down the Tungabhadra river to adorn the temples and palaces of Vijayanagara. The mild essential oil content and specific fragrance make it a product of geographical significance.

2. Coorg Green Cardamom (Karnataka)

Renowned as one of the oldest and most sought-after cardamom varieties, Coorg Green Cardamom comes from the Malabar variety of the perennial plant Elettaria cardamomum. Originating in the Western Ghats, this cardamom has a rich history, having been used in ancient India for both culinary and medicinal purposes. Notably
