"we converge"

core values

"we" in weschool represents the spirit of convergence, one that embraces multiple forces of advancement and human centered approach that power transformation and progress. The 'WeSchool' brand identity of S. P. Mandali's, Prin. L N Welingkar Institute of Management Development and Research represents the school's commitment to continuously evolve and make meaning to its stakeholders.

More than ever, one can see organizations, community and the world at large are breaking down silos and progress is being driven by convergence of human values, collaboration, embracing diverse voices, technology and immersive experiences. **WeSchool, building on its legacy of 46 years, is the crucible that creates an ecosystem that converges these elements for its stakeholders so they can thrive in the dynamic landscape of 21st-century business.**

We Converge - Diverse Voices:

With 8 distinct full-time management programs that cover an array industry sectors, WeSchool converges the voice of industry across business sectors viz. IT & ITES, FMCG, BFSI, Pharma, Consulting, Media, Agri-businesses, Food industry, Telecom, Supply Chain, Retail, Insurance among others on campus. Apart from the traditional PGDM (MBA), the Institute over the last two decades offers a PGDM in - E-Business, Research & Business Analytics, Business Design & Innovation, Retail, Healthcare, Media & Entertainment and Rural Management is what has manifested this diversity consistently.

- *PGDM Media converges* - commerce, community, content
- *PGDM Healthcare converges* - Fintech + Healthcare thus making healthcare financing seamless, secure and more efficient, allowing fintech to create more tailored and cost-saving medical experiences for the end-user. With the amalgamation of finance and healthcare technology, India has opened its door to a world of endless possibilities-boosting the affordable, accessible and more inclusive healthcare ecosystem.
- *PGDM Retail* - The future of retail lies in the convergence of personalization, automation, seamless omnichannel experiences, data privacy, and emerging technologies such as AI and VR.
- *PGDM Rural Management* - Converges rural insights, urban world, sustainability and technology across connect sectors such as FMCG, BFSI, Food industry, Consulting among several others.
- *PGDM Business Design & Innovation* - Collaborative user-centric approach that perfectly blends design and management – Business design exclusively offers an ***human-centric approach*** that helps practitioners design, test and validate whole new (or improved) business models. Because of its human-centricity, this approach makes sure that every component of a business model can positively affect the end customer, without failing to deliver solid, sustainable business value for the organization.
