- *PGDM E-Business* - Technology makes a difference when it converges capabilities to bring in transparency, protects privacy, avails resources to the underserved.
- *PGDM Business Analytics converges* - Data Analytics with fuctional specialisations.

This diversity has also ushered in students with distinct educational backgrounds from across the nation, diversity in their experience and a campus with equal gender diversity. This diversified richness is what ensures a natural ecosystem for learning to work in collaboration and deal with different perspectives. With 990 students in the Mumbai and Bengaluru campus admitted every year, the campus experience prototypes the world of work and society in many ways.

We Converge learning through – Immersive and Experiential experiences:

The design thinking approach of the institute has been the root of inculcating – immersive and experiential learning as an integral component of its learning process. Beginning with the foundation program with an industry immersion program, the Global Citizen Leader course – where students work on real-time projects from industry using the principles of design thinking and innovation, the WeSchool experience is woven around real-time exposure. An outcome of this approach has ensured that students of WeSchool work in Strategic roles across organizations such as Mahindra & Mahindra, Accenture, IBM, Morgan Stanley, Capgemini among several others.

We - Fuel Entrepreneurship:

The Institute has consistently encouraged entrepreneurship. Set-up in its Mumbai campus in May 2015 is the WeSchool REDX (Rethinking Engineering Design eXecution) Innovation lab, a unique, bottom-up co-innovation platform designed to address grand challenges in the emerging world.

The environment is charged with curious minds working on developing novel and innovative citizen-based technologies in various domains including (but not limited to) health technology, urban development, waste management, and financial inclusion; that supports wide-ranging needs of urban population and corporations. The innovations are affordable, can scale quickly and easily and are applicable globally.

wenture.inv 2.0 is an entrepreneurial initiative housed at the WeSchool Incubator, Mumbai. Our primary goal is to provide a robust platform for entrepreneurs to showcase their innovative products and services to a discerning audience while presenting their funding requirements to a community of investors.

We - Explore Emerging technologies:

Having pioneered the PGDM E-Business program in 2002, WeSchool has over the decade evangelised technology in business – its appreciation, and application, in a way that it helps makes ideas come to life and builds speed, depth and scale. While the Institute's PGDM E-Business, PGDM Research and Business Analytics provide the students strong pillars of understanding new age technology, Data Analysis capabilities, the PGDM Programs in Retail, Healthcare, Media & Entertainment, Rural Management provide for understanding how technology can make an impact across sectors and its manifestation to becoming the catalyst to growth.

The REDX Lab has proven expertise in technologies spread across AI/ML, Data Visualization, AR/VR to 3D printing for physical prototypes.

we4tech is another internal tech hackathon:

That we conduct every year for our incoming batch of students right in their first three weeks at the campus. Tech tutorials are organized for students from both tech and non-tech backgrounds to help them create tech-based solutions for various business/societal challenges.

We - Sustainability:

WeSchool students participated in the 'India-Swedish Collaborations for Innovative Energy Solutions', by India-Sweden Innovations´ Accelerator (ISIA). The initiative was supported by Swedish Energy Agency, Business Sweden and Confederation of Indian Industries (CII) – Green Business Centre, while WeSchool and Mälardalen University are the academic partners.

We - Collaborate:

WeSchool converges international student exchange partnerships with Universities across the globe viz Curtin University, Australia, Malardalen University, Sweden Sogang University, South Korea, Trade and Investment Queensland, Australia, University of Lincoln, UK, University of Western Australia, Australia VHL University of Applied Sciences, Netherlands Otto Fredrich Universitat, Bamberg, Germany, Stuttgart University Germany among others.

WeSchool is a crucible that converges elements of change, we invite you to explore further on www.welingkar.org
