

DR. MANJULA POOJA SHROFF

DREAMING & RECREATING INDIA'S NEXT GENERATION

Meet an educationalist who sees herself as the catalyst to transform generations of young Indians, getting them to discover their true potential and realize it. She believes that her true role is to empower her students to discover the universe and find a prime place for themselves in it.

At the heart of the educational fraternity stands a visionary educationist, deeply committed to catalyzing profound transformations in the lives of young students. This dedicated edupreneur, driven by an unwavering passion for education, envisions herself as a catalyst for change, to bring out the potential within each student. She breaks the traditional educational stereotypes, as she strives to instill a sense of purpose and empowerment, guiding the students and teachers towards realizing their true selves.

Dr. Manjula Pooja Shroff, the MD & CEO of the Kalorex Group, stands as a visionary in the realm of education, dedicated to transforming the lives of young Indians and sparking self-discovery within them. With an unwavering commitment to education, she sees herself as the driving force propelling generations toward realizing their true potential.

In her own eyes, her true role extends beyond the confines of a classroom. She perceives herself as an architect of possibilities, aiming to empower students not merely with knowledge but with the tools to navigate the universe and carve out a prime place for themselves within it. Her philosophy centers on the belief that education is not just a means to acquire information but a transformative journey that equips individuals with the skills, confidence, and resilience to navigate life's challenges. Her thought leadership goes beyond imagination when we see her in her AI avatar MAYA addressing students and teachers to exemplify the extent that she herself believes in technological advancement and implementation.

Over the past 28 years, Kalorex has evolved under Dr. Shroff's leadership to encompass 55+ institutions, including K-12 schools, pre-schools, and initiatives for special needs and underprivileged students. Dr. Shroff is a trailblazer in Gujarat's schooling sector, marking Kalorex with quality initiatives and seamless processes.

Her philosophy goes beyond textbooks, envisioning education as a potent tool for personal and societal transformation, instilling critical thinking, creativity, and ethical values. Special initiatives like Visamo Kids Foundation and Prerna highlight her commitment to students from diverse backgrounds.

From pre-primary to higher education, the Kalorex Group, guided by Dr. Shroff, prioritizes academic excellence while nurturing character, leadership, and social responsibility. All the K-12 schools adhere to the UNESCO SDGs and ensure that all stakeholders are made aware about their responsibilities towards the planet and environment. Kalorex alumni are vastly placed across the globe and are proud ambassadors of the Kalorex Core values which exemplify excellence in all aspects.

Dr. Shroff's inspirational journey is captured in her biography, "Success, Mantras and Musings," narrated by Ms. Anurita Rathore Jadeja. Additionally, she authored "Baby Steps to Big Dreams," a bestseller providing essential guidance for modern parents across all age groups, reflecting her commitment to primary stakeholders.

Beyond her role as an Edupreneur, Dr. Shroff is a versatile figure, encompassing roles of a life coach has gained quite a standing as a social influencer too. She is a fitness and health conscious individual and advocates the same for her team and students. Her SHROFFism videos offer a holistic perspective on leading a centered life by balancing mental, physical, and spiritual dimensions.

In every facet of her life, Dr. Manjula Pooja Shroff has created an indelible mark on the educational landscape and inspiring others to reach their full potential.
