DS GROUP

A SENIOR LIVING PROJECT PAR EXCELLENCE - THE SARAL SATYA LEGACY BY DS GROUP

In August 2023, DS Group redefined senior living by announcing the launch of its unique senior living project on the occasion of 94th Founders Day. Nestled in the expansive Knowledge Park 5 of Greater Noida, 'Saral Satya Legacy', a Senior Living project introduces an active senior living community featuring three residential blocks and a recreational block with a state-of-the-art recreational center, all offered through a unique rental model. The architectural design fosters a welcoming atmosphere, promoting social interactions, reducing feelings of isolation, and encouraging participation in physical activities. Nestled on a 12-acre expanse, the project features 298 units, including studios, 1 BHK, and 2 BHK residences in its initial 98-unit phase. Offering fully furnished spaces on a rental basis, the development promotes modern living. At its heart is a 12,276 sq m recreational centre, providing a vibrant space for community engagement and relaxation. With contemporary design and thoughtful amenities, the Saral Satya Legacy project sets a new standard for harmonious living.

India is undergoing a significant demographic shift, marked by a rapidly aging population. The India Ageing Report forecasts that by 2050, one in five individuals will be seniors, constituting 20.8% of the population, a substantial increase from 10.5% in 2022. Government initiatives, digital literacy programs, and corporate efforts are addressing the evolving needs of the elderly. Property consultancy Anarock reported 62 senior living projects by the top 12 real estate companies in June 2023, with at least five new projects under construction. A study by Ormax Compass projects 2.4 million senior citizens living independently in the Mumbai Metropolitan Region by 2031, emphasizing their preference for self-sufficiency. With the 60+ population growing at 3.8% annually, reaching 10% of the total population in 2021, and a life expectancy of 71 years by 2030, the demand for senior living reflects a changing landscape. Surveyed seniors highlight the paramount importance of accessible medical facilities, developers' proven track records, and a community-focused lifestyle away from urban chaos but connected to major hubs. The evolving preferences and demographics underscore the need for tailored solutions in senior living developments.

The landscape of senior living housing in India has undergone a significant transformation, gaining prominence, especially in the wake of the COVID-19 pandemic. Real estate developers have responded to the growing demand by introducing dedicated projects and constructing towers equipped with essential amenities tailored for senior citizens. A noticeable shift in the mindset of the elderly population is evident, with a preference for a secure, independent, and purposeful retirement lifestyle. The surge in demand for senior citizen housing amid the pandemic is projected to continue, driven by an increasing focus on health and well-being coupled with a rapidly aging population, as highlighted by reports from Housing.com. Initially embraced in the South, senior living concepts now dominate in southern cities such as Bengaluru, Chennai, Kochi, and Coimbatore, accounting for 70% of the overall projects in India. As this trend extends to western and northern regions, senior living housing is poised to emerge as a crucial residential asset class, with anticipated exponential growth over the next three decades to meet the evolving needs of India's aging demographic.

At Saral Satya Legacy, thoughtfully curated amenities have been designed to redefine lifestyle. A dedicated concierge desk ensures seamless service from the moment one arrives. Indulge in delectable meals at the dining facility or host special events in the banquet and multipurpose hall. Stay active with the badminton court, dedicated walking track, and outdoor gym. Seek tranquility in the community centre or unwind in the movie hall. The Saral Satya Legacy also has Naturopathy facilities for holistic healthcare services that focus on natural remedies and the body's ability to heal itself. One can elevate fitness routines in the gym, aerobics, and yoga spaces. Enjoy indoor games such as carom, chess, pool, table tennis, and cards, or lose yourself in a good book from our library. Pamper yourself at the salon and spa or take a refreshing dip in the swimming pool and jacuzzi. The exclusive movie hall is an in-house theatre to enjoy movies with other seniors living on the premises. Stay connected with Wi-Fi, completing the full spectrum of amenities for a life of comfort and recreation. Welcome to a community where every detail is designed to enrich one's lifestyle.
