KEY TAKEAWAYS

- Many think men constitute a majority of the farmers, but it is the women who make up the bulk of the agriculture workforce
- In Karangaguri village in Simdega district, there is now a rule—you can't come to school without a hockey stick. Children start playing hockey from the first standard. The result: many daughters of Jharkhand are playing in the Indian team. There are four players from Jharkhand in the senior team, including two from Karangaguri
- Infrastructure-building is critical for development. The Bogibeel bridge connecting Assam and Arunachal has changed the lives of people on both sides of it

In 2021, our schools had an academic zero-year because of Corona.... We established labs to bridge the learning gap, but the question was, what would be the theme? Civilisations began by watching stars in the sky, what better way than going back to it? So, we established astronomy labs

Girls too have dreams, not just those in Rajasthan, but everywhere. The mission for them can't just be marriage, bearing children and running a family.... I was not interested in a job. I did not want to work under someone from morning to evening doing *gadha majoori* (donkey's work)
