Power 160 bhp
Price Rs 16.8-20.3 lakh (ex-showroom)

CRETA N LINE

Hyundai has launched the Creta N Line, the third model in the range after the Venue N Line and the i20 N Line. Powered by the 1.5 litre turbo-petrol engine which produces 160 bhp and 253Nm of torque, it can be paired to a 6-speed manual or a 7-speed DCT (dual-clutch transmission). Continuing with the N Line theme, the SUV gets a sportier look with a few cosmetic changes to the exterior and interior with N Line branding and red accents. It also gets sportier 18-inch alloys. Hyundai has added a twin-tip exhaust as well as a spoiler, and made changes to the suspension and steering to make the drive sportier too.
