Car of the Year too with an extensive list of standard features including six airbags, three-point seat belts for all seats, ABS with EBD, Electronic Stability Control (ESC), Vehicle Stability Management (VSM), Hill Assist Control (HAC) and many more. These qualities combined ensured the Indian Car of the Year title went its way and have also aided its success in the market.

Showcasing the breadth of Hyundai's capabilities and technological prowess is the winner of the Green Car Award 2024 by ICOTY – Hyundai IONIQ 5. A stellar example of Hyundai's extremely impressive charge towards electrification, the IONIQ 5 is a global product made in India to give buyers an environmentally friendly, spacious, luxurious and technologically advanced SUV as they take a step towards embracing future mobility. Developed on Hyundai's dedicated electric vehicle architecture, E-GMP, the IONIQ 5 stands out from the ever-increasing crop of green cars with its stunning design blends the familiarity of the iconic Hyundai PONY with a progressive and futuristic look. As a premium electric SUV, the IONIQ 5 sets the benchmark in terms of road presence, space efficiency, features and tech as well as performance and exceptional range all of which are offered at an attractive price. These qualities have not only helped it claim the Green Car Award but have also impressed customers and it's no wonder there are over 1,100 of these already on Indian roads within a year of its launch.

On winning the ICOTY 2024 and the Green Car Award,

The Hyundai IONIQ 5 sets the bar very high for premium EVs in India. The SUV's cabin is a stellar example of blending luxury with space, comfort and technology, factors that helped it win the hearts of critics and buyers alike

Tarun Garg, COO, Hyundai Motor India, said, "I'm incredibly grateful for the recognition bestowed upon Hyundai with the ICOTY win for EXTER and the Green Car Award for IONIQ 5. A massive thank you to the esteemed jury for this honour. The overwhelming response, with EXTER amassing over 1,00,000 bookings and IONIQ 5 sales reaching 1,100 units, reflects the trust and support from our amazing customers. Hyundai Motor is committed to setting benchmarks with our products and services. Here's to driving innovation and exceeding expectations!"
