

leadership are at the core of our values. We encourage our team members to take the lead in trials, academic activities, and conference organization. Our aim is to nurture leaders who will drive the future of cardiac care and research. We provide the platform and support needed for our team to innovate and make significant contributions to the field.

Strong Financial Backbone: We are proud to be in collaboration with a company worth ₹1000 crores, providing a strong financial backbone to support our endeavors. With this partnership, we can significantly support our team and invest in advanced facilities and research. Together, we aim to add innumerable zeros to this value, leveraging the contributions of our talented team.

International Presence: Our expansion is not limited to national borders. Through a collaboration with the government of Burundi, we have established an international presence, offering lucrative opportunities for experienced cardiologists. This global reach allows our team to gain international exposure and contribute to cardiac care on a broader scale.

Comprehensive Training: Continuous learning is essential in the field of cardiac care and research. We provide comprehensive training programs to ensure that our team stays updated with the latest advancements. Our training initiatives are designed to enhance skills, knowledge, and expertise, ensuring that our team can deliver the highest standard of care.

State-of-the-Art Facilities: Our institutes are equipped with the latest technology and state-of-the-art facilities. We believe that advanced facilities are crucial for providing the best care and conducting cutting-edge research. Our commitment to technological advancement ensures that our team has the tools they need to excel in their work.

Community Engagement: We are dedicated to engaging with local communities and improving healthcare accessibility. Our initiatives are designed to make a significant impact at the grassroots level, ensuring that quality cardiac care is available to all. We believe that community engagement is essential for building trust and fostering a healthy society.

Holistic Well-being: The well-being of our team is a top priority. We offer a supportive work environment that promotes work-life balance and professional satisfaction. Our holistic approach ensures that our team members feel valued, supported, and motivated to achieve their best.

Join us at the Mody Harvard Cardiac Care and Research Institute and be part of a journey that aims to revolutionize cardiac care through collaboration, innovation, and dedication. We are expanding in a big way and need passionate individuals like you to lead the front. With upcoming centers in Panipat and Gurgaon, the opportunities are endless. We don't just want you to be employees; we want you to be our partners and an integral part of our growing organization. Call us and join us in making a significant impact in cardiac care and research.

At the Mody Harvard Cardiac Care and Research Institute, we are at the forefront of interventional cardiology, offering advanced treatments such as valve interventions and precision angioplasty for complex anatomies. Our state-of-the-art techniques include the use of Intravascular Ultrasound (IVUS) for stent optimization and managing complications, and we employ advanced technologies like RotaPro and Orbital atherectomy for calcified lesions. Our 24/7 programs provide immediate care for myocardial infarction (MI) and stroke.

We excel in device implantation, including CRT-D and pacemakers, and perform Left Atrial Appendage (LAA) closure and grafts for aneurysms and dissections. Our precision angioplasty utilizes imaging and physiological assessments, with newer techniques like Quantitative Flow Ratio (QFR) using selected angiographic views, enhancing the accuracy and effectiveness of our interventions.

Our international presence is bolstered by numerous national and international publications, clinical trials, and active participation in global conferences. We invite you to join us as a student, mentor, teacher, or partner, and be part of our mission to deliver cutting-edge cardiac care.

Our goal is to bring the latest technologies to underserved areas, making advanced cardiac care accessible and affordable. We open our doors to passionate individuals ready to collaborate and make a significant impact in the field of cardiology. Together, we can revolutionize cardiac care, providing top-notch services to those who need it most. Join us in this transformative journey and contribute to our vision of excellence and innovation in cardiac healthcare.
