companies. It involves constant monitoring and visual planning of data

↘ **E-commerce:** Manage or create your own online business to sell products or services

↘ **Data scientists:** Advise companies on how to make data-driven decisions. This can also help improve important modern-day services such as fraud detection, business intelligence and customer insights

↘ **Sustainability consultant:** A career in this field includes helping companies become more environment- and sustainability- friendly without making losses

↘ **Financial planner:** One can help individuals or families achieve their financial goals and build wealth.
