breaking technologies spanning a wide spectrum, ranging from use of advanced dental materials like ceramics and zirconia (for dental implants/crowns) to the use of artificial intelligence in diagnostic tools

- The college has recently **collaborated with School of Dental Medicine, Tufts University, USA,** to foster teaching initiatives. It has allied with the Central Health Education Bureau for information, education and communication activities, and behaviour change communication, for patients, students and research work

DID YOU KNOW?

- MAIDS collaborates with the International Union Against Tuberculosis and Lung Disease (South East Asia) for tobacco use control

ALUMNISPEAK

"There is so much to learn at MAIDS, so much to grasp, and that is what makes studying here special. Dealing with almost 100 patients a day boosts your ability to handle pressure and hones your skills as a dentist. People come from all walks of life for treatment"

DR URVI BHATIA
