A VANGUARD IN VASCULAR SURGERY

Dr Varinder S. Bedi's journey in medicine is a testament to his commitment to excellence. With a distinguished academic background and a passion for serving others, Dr Bedi embarked on a career dedicated to healing and innovation

A JOURNEY OF EXCELLENCE

In the realm of healthcare, certain individuals shine brightly, not just for their medical expertise but for their dedication to advancing the field and improving patient outcomes. One such luminary is Dr. Varinder S. Bedi, a distinguished figure in the medical community, whose contributions have left an indelible mark on the landscape of healthcare.

Dr. Varinder S. Bedi, a distinguished figure in the medical landscape, stands as a beacon of excellence in the field of vascular surgery. With a career spanning over four decades, Dr. Bedi's journey is a testament to his unwavering commitment to service and innovation.

Dr. Bedi's career commenced with an illustrious tenure in the Indian Navy, where he served as a surgeon and vascular surgeon for 30 years. His expertise was instrumental in serving the healthcare needs of the armed forces, earning accolades such as the Nao Sena Medal for his exemplary services during the Gujarat earthquake and the Chief of Naval Staff Commendation Card and the GOC-In-C Western Command Commendation Card for his contributions to the Army Hospital R & R.

Transitioning from military service to civilian healthcare, Dr. Bedi assumed the role of Chairman of the Department at Sir Ganga Ram Hospital, New Delhi, in 2012. Under his leadership, the department has witnessed remarkable advancements in Vascular Surgery, becoming a hub for cutting-edge treatments and procedures.

Dr. Bedi's expertise spans a wide array of conditions, including peripheral arterial disease, aortic aneurysms, carotid artery disease, and diabetic foot ulcers, among others. His proficiency in many languages facilitates effective communication with patients from diverse backgrounds.

A trailblazer in his field, Dr. Bedi has performed numerous complex procedures with precision and skill. From carotid artery surgical/stenting to aortic aneurysm repair, his repertoire includes a spectrum of surgical and endovascular interventions aimed at enhancing patient outcomes and quality of life.

Dr. Bedi's contributions have earned him international recognition, including the prestigious Robert Rutherford Oration at the European Society of Vascular Surgery in Lyon, France, where he presented on "Terror Trauma" in 2017. He delivered the “Veera Reddy Oration” also at the annual meeting of VSICON. His dedication to advancing vascular surgery has garnered admiration and acclaim from peers and patients alike.

Committed to continuous learning and professional development, Dr. Bedi has pursued specialized training and certifications in vascular surgery, including a fellowship in Germany. His thirst for knowledge and passion for excellence drive him to stay at the forefront of advancements in his field.

As Chairman of Institute of Vascular & Endovascular Sciences, Sir Ganga Ram Hospital, Dr. Bedi envisions a future where innovative treatments and compassionate care converge to redefine standards in vascular surgery. His visionary leadership and unwavering dedication inspire colleagues and mentees to strive for excellence and make a meaningful impact in the realm of healthcare.

Dr. Varinder S. Bedi's journey from military service to civilian healthcare leadership exemplifies a steadfast commitment to healing, innovation, and service. His exemplary career serves as an inspiration to aspiring medical professionals and a testament to the transformative power of dedication and expertise in shaping the future of healthcare.

The true potential of Vascular surgery is yet to be realised but it is already saving limbs and lives: Dr Varinder S. Bedi

In the realm of modern medicine, vascular surgery stands as a beacon of hope for countless individuals battling with complex circulatory issues. Its significance has surged in recent years, particularly with the rising prevalence of diabetes worldwide. As diabetes takes its toll on the body, it often manifests in severe vascular complications, necessitating specialized interventions. In his candid interview Dr Bedi talked about the burgeoning prominence of vascular surgery, especially in the context of diabetic patients, and its pivotal role in saving limbs & lives. Excerpts:

- **Dr Bedi thanks for your time. Could you tell us what Vascular surgery is as still not many**
