

Ministers of State

SUKANTA MAJUMDAR, *44* | BJP

↘ **Path to promotion** The botany professor at the University of Gour Banga in West Bengal has been associated with the Rashtriya Swayamsevak Sangh (RSS) since his school days. He entered the Lok Sabha from Balurghat for the first time in 2019. In recognition of his contribution to the saffron party's improved performance in North Bengal in the Lok Sabha and assembly polls, Majumdar was made president of the state BJP unit in September 2021. Following his second successive Lok Sabha win, the son of a government employee and school teacher has now been given a national responsibility

JAYANT CHAUDHARY, *45* | RLD

RLD Rajya Sabha MP from Uttar Pradesh; also MoS (Independent Charge) of skill development ministry

WHAT NEEDS TO BE DONE

IMPLEMENTATION OF NEP

According to prominent academics, the central objective of the NEP has been lost in a bureaucratic quagmire, leading to mechanical and counterproductive implementation. It should be rolled out at a faster rate, while treating knowledge and skills as two sides of the same coin

TEACHERS' TRAINING

Most experts say that mass training of teachers in the use of the right pedagogy cannot be postponed any more

EXPERTSPEAK

PROF R. GOVINDA, *Former VC, National Institute of Educational Planning and Administration*

"The credibility of examinations must be freed of malpractices. There has been a deterioration in our trust in assessment and evaluation"

UNIFORM STANDARDS

There is an urgent need to bring uniformity in school education so that every school in the country is, at least, comparable in its resources and governance system to Kendriya Vidyalaya schools, say prominent educationists

NO TO VACANCIES

There must be zero tolerance to faculty vacancies in top institutions like the IITs and IIMs. A Higher Education Commission of India, as envisaged by the NEP, must be constituted forthwith
