

## NEUTRAL NUANCES

**Project Name** Surat Residence
**Location** Surat, Gujarat
**Type of Room** Bedroom
**Area** 250 sq ft
**Colour Cues** Neutral tones (white, beige) with the touch of pastel shades
**Design** Aparna Kaushik Design Group

Aparna Kaushik, founder and architect of Aparna Kaushik Design Group urges homeowners to begin with neutral toned walls featuring delicate panelling, lending a subtle texture without overwhelming the space. "To add a touch of nature's elegance, consider incorporating a minimalist wallpaper on the bed's back wall," says Kaushik. Light hardwood flooring provides a warm base, enhancing the room's luminosity. "When selecting furniture, consider a grey sofa as a versatile and sophisticated choice. Accentuate it with cushions in pastel tones of blue, brown, and beige to create a soothing contrast," she says.

## FLOWER POWER

**Project Name** Cheetahgarh **Location** Jawai, Rajasthan **Type of Room** Bedroom **Area** 65 sq m **Colour Cues** Neutral tones (white, beige) with gentle shades of pink in the linens **Design** Nivasa

Saba Kapoor, co-founder, Nivasa advocates judicious use of colour to add everything from drama to sophistication. Just like in this sunlight drenched bedroom. "Infuse vibrancy with floral upholstery and intricate detailing against neutral walls and vintage Victorian furniture," says Kapoor, adding, "Layer traditional carpets that are rich in colour for warmth, complemented by ornate wall decor. Add intricately designed vases in bright shades, turning your space into a colourful oasis." We couldn't agree more.
