

THE FUTURE IS HERE

If you are looking for forward thinking yet aesthetic furniture? Finally, the search has ended.

By **RIDHI KALE**

Born of a need for artful furniture, Flacon Cloak lies at the crossroads between design, art, craft and functionality. The brainchild of industrial designer Vijit Bagh, each piece is handcrafted and aims at blending traditional craftsmanship techniques with modern technology. So, if a lounger called Fusion Flow made in collaboration with an architectural firm is all about artistry and futurism, Crimson Flow is a contemporary piano with a unibody design made out of fibreglass. Equally alluring is Neon Pebble a sofa with a fluid design and storage. Another haute seat is the Flybridge, a sleek and stylish sofa that takes inspiration from the luxurious world of yachts. It's furniture fiesta at its finest.

PRICE ₹20,000 to ₹5.25 lakh
