

690 MW Salal Power Station (UT of J&K) - Dam

NHPC - A SAGA OF PERFORMANCE AND DELIVERY IN NATION BUILDING

NHPC Limited is India's premier hydropower company and a Mini Ratna Category-I Enterprise of the Government of India. NHPC exemplifies excellence in the hydropower sector, boasting comprehensive expertise spanning conceptualization to the commissioning of hydro projects. NHPC's vision is to be a global leading organization for sustainable development of clean power through competent, responsible and innovative values. Beyond its core, NHPC has ventured into solar and wind energy, marking its presence in the renewable energy domain. NHPC has an authorized share capital of ₹ 15,000 crore, paid-up share capital of ₹ 10,045.03 crore and an asset base of ₹ 78089.17 crore as on December 31, 2023. NHPC is a listed company on NSE and BSE after successfully concluding its IPO in 2009.

NHPC's total installed capacity is 7097.20 MW and the company is presently engaged in the construction of projects aggregating to a total installed capacity of 10449.70 MW. **Currently NHPC is constructing 60% of all Hydro Projects being constructed in India**. NHPC is moving steadily towards clean energy transition goals of Govt. of India and is putting concentrated efforts to reach an installed capacity of 23,000 MW by 2032 and about 50,000 MW by 2047. This growth will mark India's place in world hydropower development map and will make **NHPC one of the top 10 hydropower companies in the world.**

Being a completely Green Power generating company, NHPC is providing clean, environmental friendly and renewable energy with low carbon footprints. The company also supports the national grid through much needed hydropower to meet peaking demand and aims at large scale existing/ projected integration of solar and wind energy in the power system.

NHPC has successfully completed 22 remotely located hydropower stations despite numerous odds and challenges. Its technical capabilities and professional competence have enabled it to successfully construct 19 Concrete Dams, 6 Rockfill Dams, 6 Barrages and 16 underground Power Houses. NHPC is a financially robust company which has been consistently earning profit since inception with record Profit (PAT) of Rs. 3834 crore for FY 22-23.

2000 MW Subansiri Lower HE Project (Assam/ Arunachal Pradesh) - Dam

The company's significant impact on rural electrification through the Deendayal Upadhyaya Gram Jyoti Yojana, electrifying thousands of villages, highlights its commitment to social responsibility and improving the quality of life for India's rural population. NHPC has electrified 8790 un-electrified/de-electrified and 19051 partially electrified villages in India under this scheme. NHPC's extensive CSR activities in health, education, skill development and other areas, alongwith substantial financial contributions, further demonstrate its role as a socially responsible corporate entity. The allocation of Rs. 127 crore towards various CSR activities in FY 2022-23, increased to Rs. 171 crore for FY 2023-24, reflects a growing dedication to impacting societal change positively.

NHPC was conferred the 2021 International Hydropower Association Blue Planet Prize for one of its power stations which highlights NHPC's commitment to sustainable hydropower development, setting a benchmark for environmental and social governance in the energy sector. The financial year 2022-23 also saw NHPC's power stations collectively generating 24907 MUs, demonstrating its pivotal role in India's energy sector. NHPC's journey reflects a balanced approach to meeting energy needs, promoting sustainable development and contributing to social welfare, positioning it as a key player in India's energy future.
