

COLOUR OF THE YEAR

Terra's beauty and elegance lies in its raw and grounded nature. As the Colour of the Year is represents a growing desire for familiarity, comfort and emotional grounding in these ever-changing times. Resonating within our deepest memories, it takes us on a journey back to the truest versions of ourselves. It echoes the warmth of a homecoming. In a world that often feels disconnected, Terra is the thread that stitches us back to the fabric of our being, a colour that quietly whispers the language of belonging.

FORECAST 1 - SOIL

Moving beyond its raw, handcrafted origins, soil is a pathway to innovative design. It has been transformed through human ingenuity into avant-garde structures with bold contemporary aesthetics. This evolution highlights soil as a versatile material, where it now takes on diverse, dynamic shapes, showcasing its adaptability. Blending meticulous craftsmanship with a futuristic vision, soil bridges its earthy origins with cutting-edge design, marking a pathway for rediscovery and innovation.

FORECAST 2 - INTO THE DEEP

This trend embraces the fantastical depths of oceanic marvels. The underwater realm, with its biomorphic forms and contrasting interplay of light, invokes both reflection and awe. Into the Deep is about delicate beauty—fragile and vulnerable to human intrusion—inspires mindful designs to reflect the ocean's integral role in the planet's ecosystem. Encouraging a design philosophy that mirrors the ocean's dynamic yet delicate nature, we're guided towards creating spaces and objects that resonate with the deep, serene essence of the marine world.

FORECAST 3 - INDO FUTURISM

A retro-futuristic cultural tapestry of the country is what Indo Futurism is about. The confluence of India's rich cultural heritage and the fantastical realm of science fiction has shaped a vibrant visual language. This retro-
