

Photographs by KUBER SHAH

**SUBTLE STYLE**
The living and dining spaces, along with the open kitchen, use accessories to make a subtle style statement, while the artworks in the bedrooms add elegance and comfort. Note the dramatic touch given by the washbasin in the bathroom.

**QUICK TAKE**

**Project Name**
The Palette
**Design Firm**
TMDS
**Location**
Dadar, Mumbai
**Area**
1,400 sq ft

It maybe a tricky thing to design for a client that does not exist, but it also allows us to play with neutrals and bring in colour creatively. This 3BHK show flat was created to showcase a blend of modern and classical design styles where every element exudes a contemporary yet timeless appeal.

The idea was to create a harmonious blend of minimalist trends with classic styles. So, we picked accessories to not just be mere embellishments but tell stories of taste and refinement, making every nook and corner a visual delight. With each of them contributing to the overall appeal of the space, they convert the apartment into a beautiful, living canvas of sensory experience.

Neutral floors and colour palette creates the ideal backdrop for the design elements to shine through. Special attention has been given to the lighting to create the right mood in every space such that the palette experience stays with those who visit it.
