

BREAKING BARRIERS: INDIA'S RISE IN GLOBAL ENERGY LEADERSHIP AT INDIA ENERGY WEEK 2024

India Energy Week 2024, held in Goa from February 6th to 9th, concluded with a resounding affirmation of India's burgeoning role in the global energy landscape. Under the theme "Viksit Bharat @ 2047," the event showcased India's strengths and resolve towards achieving a sustainable and equitable energy transition by 2047, coinciding with the nation's centenary of independence.

In his inaugural address, Hon'ble Prime Minister Narendra Modi reiterated India's commitment to substantial investments in the energy sector, citing an allocation of Rs 11 trillion for infrastructure development, a significant portion of which is earmarked for energy projects. PM Modi highlighted India's increasing energy capacity and emphasized the government's role in creating conducive conditions for domestic and international investment.

A key highlight of the event was Prime Minister's announcement of reforms in the oil and gas sector, unlocking investment opportunities worth $67 billion. These reforms aim to boost the share of natural gas in India's energy mix from 6% to 15% by 2030, signaling a shift towards cleaner and more sustainable energy sources.

Union Minister for Petroleum & Natural Gas and Housing & Urban Affairs, Hardeep Singh Puri, praised the achievements of India Energy Week 2024, noting a 30% increase in exhibitors compared to the previous year. He emphasized the event's role as a premier platform for industry stakeholders to network and showcase technological innovations.

The event attracted participation from CEOs and board members of leading global energy companies, as well as representatives from biofuel and renewable technology firms. Moreover, The Hon'ble Union Minister highlighted India's significance in the global energy landscape, projecting that the country will account for 25% of incremental global oil demand growth over the next two decades.

India Energy Week 2024 featured exhibitions showcasing cutting-edge technological innovations across the energy spectrum. Minister Puri commended the efforts of individual entrepreneurs and larger corporations alike in driving technological advancement in the energy sector.

Looking ahead, it was announced that the third edition of India Energy Week in 2025 will take place from February 11th to 14th at the India International Convention and Expo Centre in New Delhi. Additionally, India Energy Week 2026 will return to Goa, hosted at the IPSHEM-ONGC Training Institute.

India Energy Week serves as a catalyst for India's energy transition goals, bringing together stakeholders from the entire energy value chain. The event promotes collaboration and innovation, with a special focus on integrating startups into the energy sector. With over 35,000 attendees, including 17 energy ministers from various countries, and more than 900 exhibitors, India Energy Week 2024 showcased the nation's commitment to driving sustainable energy solutions.

Six dedicated country pavilions and a Make in India Pavilion highlighted international partnerships and indigenous innovations in the energy sector. As India emerges as a key player in the global energy arena, events like India Energy Week play a crucial role in shaping the future of energy production and consumption, driving towards a more sustainable and inclusive energy transition.
